'THE' SUV. What's that?

Just a title? No.

It's a new standard. The only one that matters.

A universal constant.

And here's the thing about universal constants.

They are definite. Undisputed. Uncontested.

For the rest of time. Period.

THE DESIGN

How do you improve on something that's already great? Well, you deconstruct it and build it back from the ground up. Only better. The Thar Roxx takes what was already iconic and elevates it to new heights - the stance is wider, the presence is even more commanding and when you see it, you'll know why it's called THE SUV.

Creative visualization. For illustrative purpose only.

Khivrajkamal Mahindra Call 6384000220

Ambattur | Avadi | Sriperumbudur | Villivakkam | Chengalpattu

FORM AND PRESENCE

In the presence of 'THE' SUV, everything else looks lacklustre. From the External Hinges, Handlebars to the Tailgate mounted spare-wheel, every little detail on the Thar Roxx gives off an air of boldness. The Short Overhangs combined with a wider stance, the upright A Pillar with the flat windshield - all enhance the already impressive frame and presence of Thar Roxx. Flat, solid and smooth surfaces everywhere you look. The Thar Roxx is unmistakably a Thar and undoubtedly 'THE' SUV.

DUAL-TONE METAL ROOF

The Dual-tone Metal Roof pays homage to the Thar adventure aesthetic, with a sleek black matte finish. But it's there for more than just looks. The roof is solid metal and is as sturdy as it gets. It's easy on the eyes, strong to the touch and ready for anything.

C-SHAPED LED DRLs

We dare you to break eye-contact - Because once you're in its gaze, it gets harder and harder to look away. Like two crescent moons illuminating the night, the new C-shaped LED DRLs are a mesmerising addition to the front look of the Thar Roxx. And to complete the effect, on the rear are added equally iconic and instantly recognizable taillamps.

'THE' GRILLE

Stylish - Sleek - Imposing - just some words that will run through your mind when you see the Thar Roxx. The new grille is inimitably a Thar, with a polished edge to it.

R19 DIAMOND CUT ALLOY WHEELS

Framed within signature trapezoidal wheel arches, the Thar Roxx offers class-leading* All-Terrain R19 wheels. When you look at them, you know that they're designed for just one thing - to literally elevate you over other SUVs.

THE ARCHITECTURE

The foundation of THE SUV is its revolutionary M_GLYDE PLATFORM chassis made with high-strength steel. Solid as a rock, high on torsional stiffness and light on weight, the chassis sets a new benchmark for comfort and strength. With the highest wheelbase in the segment*, you can expect unparalleled stability and ultimate comfort. It doesn't just marry dynamics and handling seamlessly but is the reason the Thar Roxx will forever be known as THE SUV.

ALL-NEW M_GLYDE PLATFORM

PERFECT PROPORTIONS

Innovation. One simple word that serves as the blueprint for 'THE' SUV. It's got a length of 4428 mm, a width of 1870 mm and a height of 1923 mm. But these numbers are more than just its dimensions, they're an extension of what people can expect from an SUV - The all-new architecture lends a commanding presence, enhanced comfort, smooth ride quality and safety to the Thar Roxx. The only thing that hasn't changed is the same iconic Thar form factor - Everything else is a product of game-changing innovations.

SAFE AS IT GETS

A product that's the result of best-in-class crash performance, Thar Roxx offers 35+ standard safety features which include 6 Airbags, comprehensive ESP 9.3 suite, Automatic Emergency Braking, and more.

ALL-NEW SUSPENSION ARCHITECTURE

THE SUV is precision engineered for superior ride and handling, it offers Watt's-Link Suspension to minimize lateral axle movement, and MTV-CL/FDB to provide great ride quality, no matter the terrain. It's also the first SUV* to offer AHRB (Advanced Hydraulic Rebound Stop), providing excellent body control in undulated roads. But here's what it really means: superior handling, unmatched comfort and smooth, unwavering driving confidence.

THE SOPHISTICATION

If the outside wasn't enough to blow you over, just wait till you get in. With a bold new interior - The Thar Roxx exudes refined ruggedness and enduring elegance.

SKYROOF™

In the Thar Roxx, the sky is the limit, courtesy of the largest panoramic sunroof in the segment.* Because when you're in 'THE' SUV, you don't have to reach for anything, not even the sky. Just press the button and simply let it in.

REAR SEAT A/C VENTS

Cool in the front, in the back, and everywhere else. The rear A/C vents in THE SUV ensures no matter where you sit, you're always comfortable.

POWERED AND VENTILATED SEATS

There's only one way to drive THE SUV - like a king. And the road is yours to command when you get behind the wheel on your powered driver's seat throne. Like true royalty, the ventilated leatherette seats ensure you always have the coolest seats in the house, regardless of the temperature outside.

HARMAN/KARDON SOUND SYSTEM

With the new 9-speaker custom-tuned Harman Kardon Sound system, THE SUV is nothing short of a concert on 4 wheels. Hip-hop, Rock and Roll, Jazz or Classical, no matter what your music taste, you'll always listen to it in the highest fidelity.

QUIET LUXURY

Sometimes, silence speaks louder than words. Powerful on the outside but calm on the inside - The Thar Roxx has the best-in-class NVH with dampeners placed at key sections to ensure refinement and quietness in the cabin, at all high speeds.

FEEL FREE

THE SUV isn't just about creature comforts. It is an expression of true freedom - freedom of movement and storage beyond expectations. The extended wheelbase doesn't just aid in stability and ride quality but also provides the largest usable occupant space in the segment.* With ample head, shoulder and leg room - you'll never have to squeeze or adjust for anything, whether it's your luggage or yourself.

Creative visualization. For illustrative purposes only.
Important: For complete terms, conditions and limitations,
please see the full disclaimer on the last page.

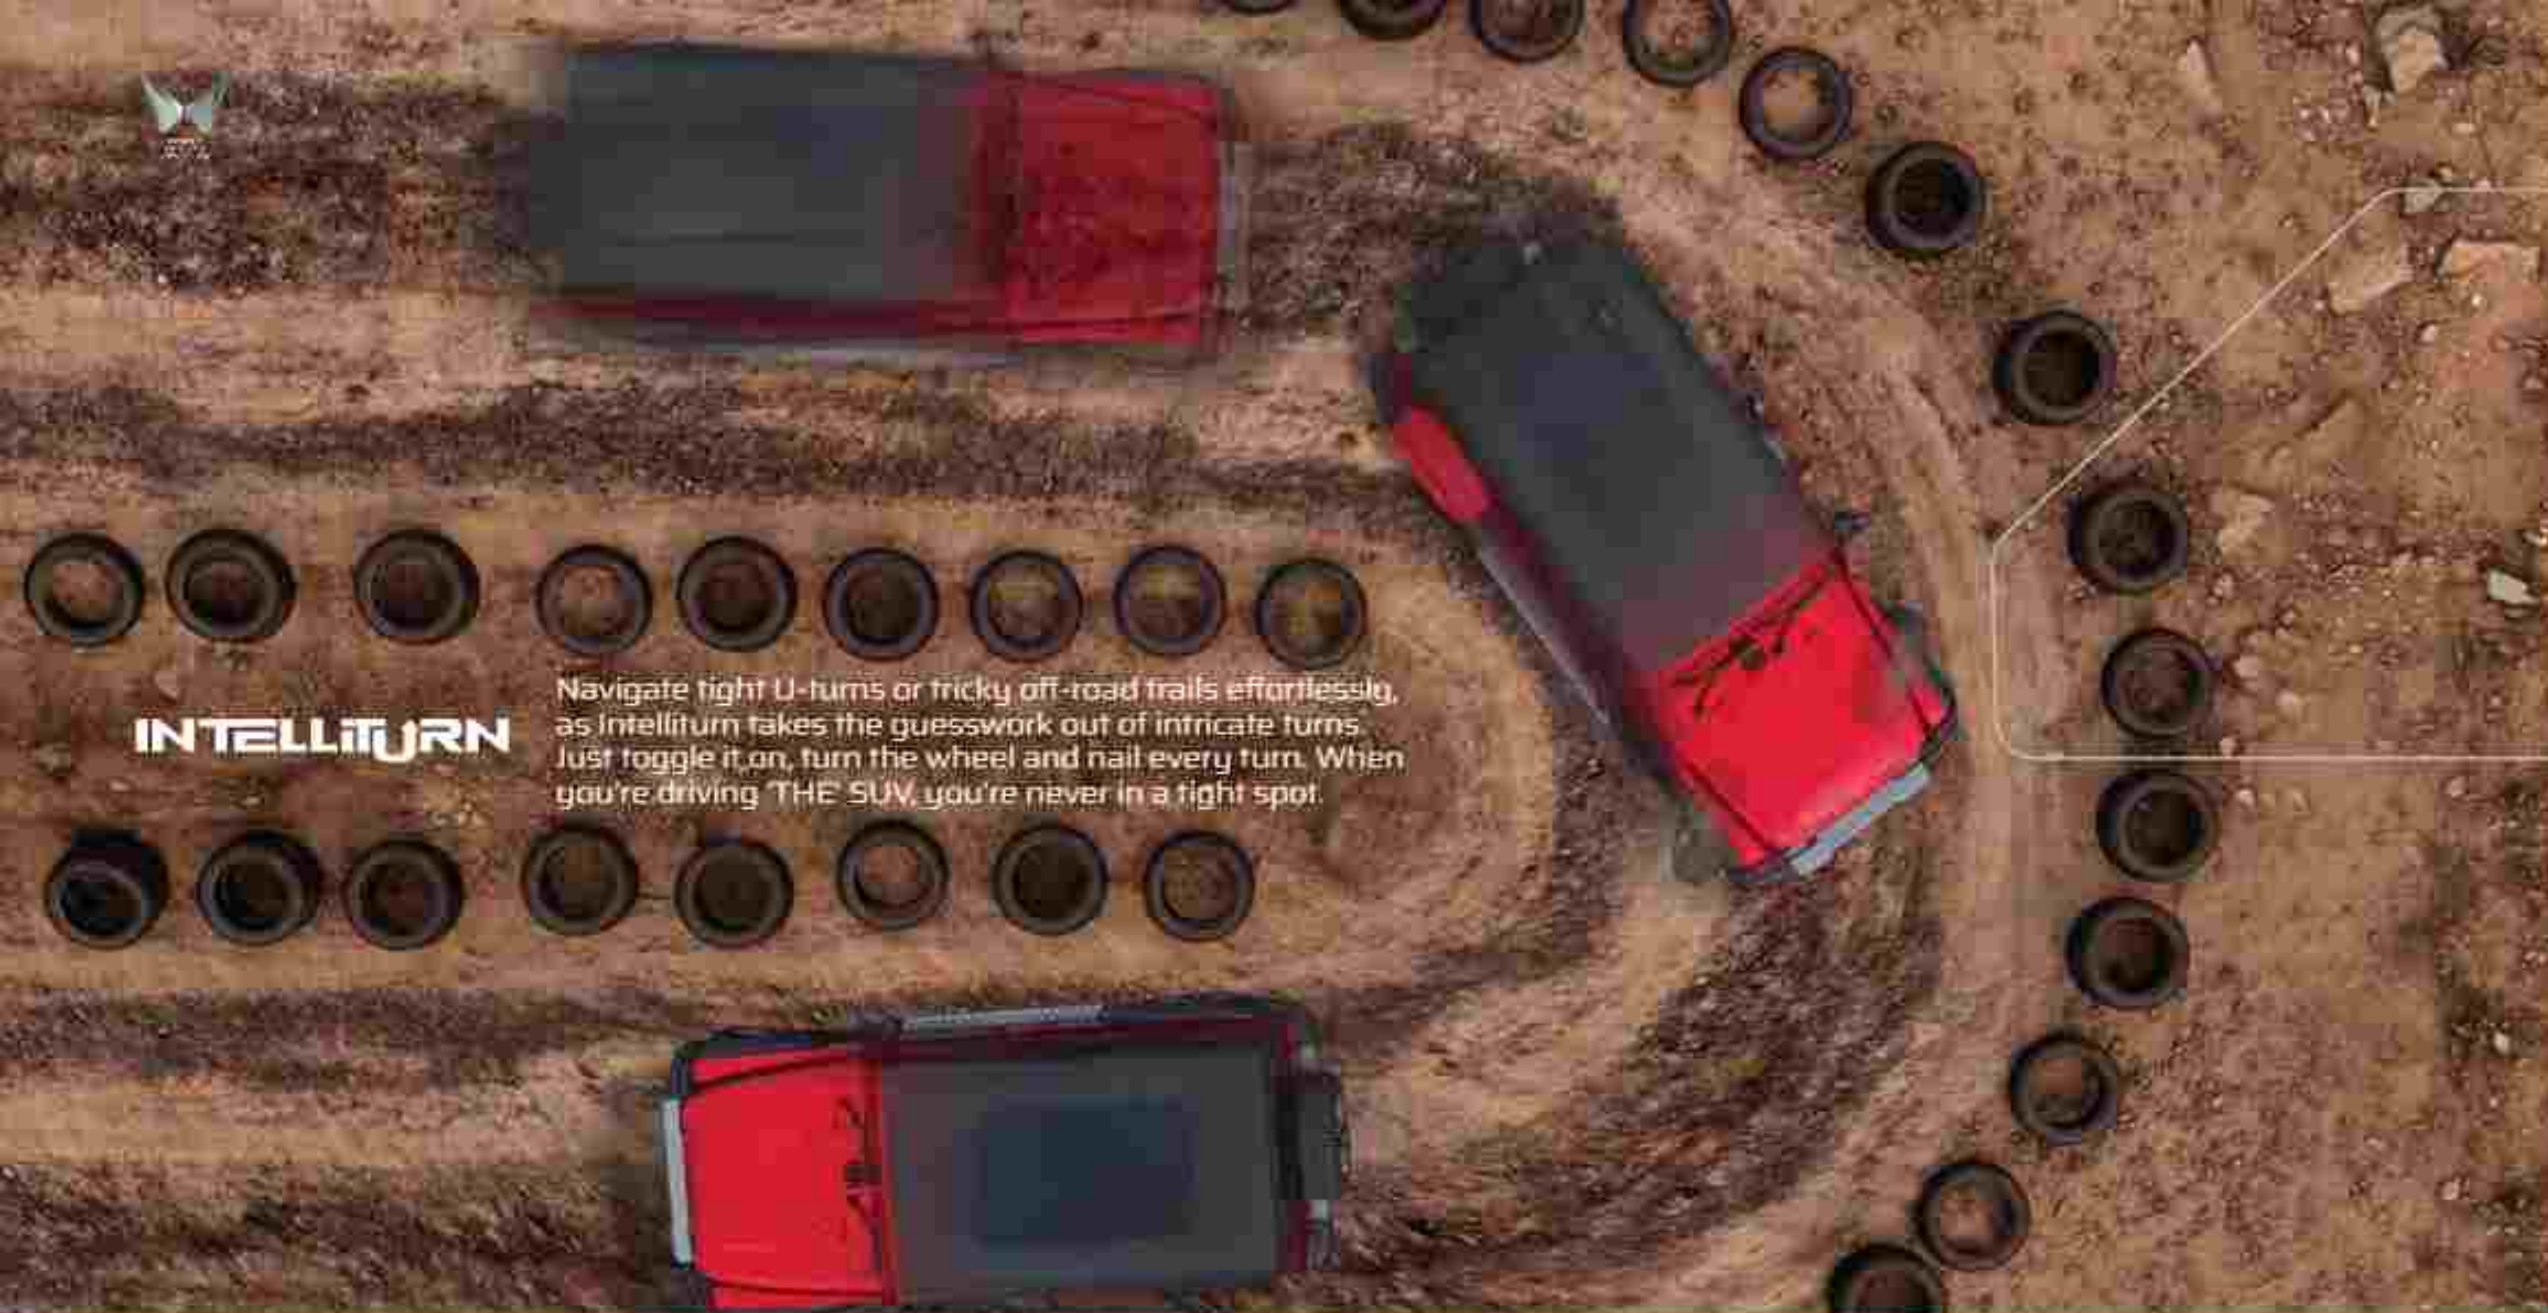

THE CAPABILITY

The Thar Roxx is 'THE' definitive adventure vehicle. Unmatched capability? Adventure tech? All-terrain tyres? It's got it all. 'THE' SUV is not just the ultimate SUV ever produced, it's a glimpse into what a true-blue off-roader should be.

CRAWLSMART

Ever climbed a hill with zero effort? Well, there are some things only 'THE' SUV can do. The first vehicle by Indian OEMs to offer this feature, CrawlSmart detects obstacles and automatically adjusts throttle response to provide the optimal power needed.

INTELLITURN

Navigate tight U-turns or tricky off-road trails effortlessly, as Intelliturn takes the guesswork out of intricate turns. Just toggle it on, turn the wheel and nail every turn. When you're driving THE SUV, you're never in a tight spot.

TERRAIN MODES AND DRIVE OPTIONS

Whether in 4-wheel drive or rear-wheel drive, you'll always unleash the full potential of THE SUV. Equipped with versatile terrain modes, 650 mm of water-wading depth and best departure and approach angles - THE SUV is engineered to tackle the toughest conditions.

Wading through water? Snow-covered trails? Slick rocky surfaces? No problem. Snow, Mud or Sand - 4XPLDR Terrain modes combined with ELD make quick work of off-road trails while Zip and Zoom drive modes take care of your city driving.

ELECTRONIC LOCKING DIFFERENTIAL

The sophisticated Electronic Locking Differential isn't just a new standard for off-roaders but the Thar Roxx is also the first vehicle by Indian OEMs to offer this feature. Distributing power to all four wheels in microseconds, ELD lets you maximize traction and minimize spin on even the trickiest of surfaces.

LEGENDARY ENGINES

Tuned and tested to perfection, the battle-tested mHawk and mStallion Engines are the true powerhouses of THE SUV. With strong Low-end Torque and best-in-class Power and Torque ratings, the Thar Roxx may be a beauty on the outside, but is a beast on the inside.

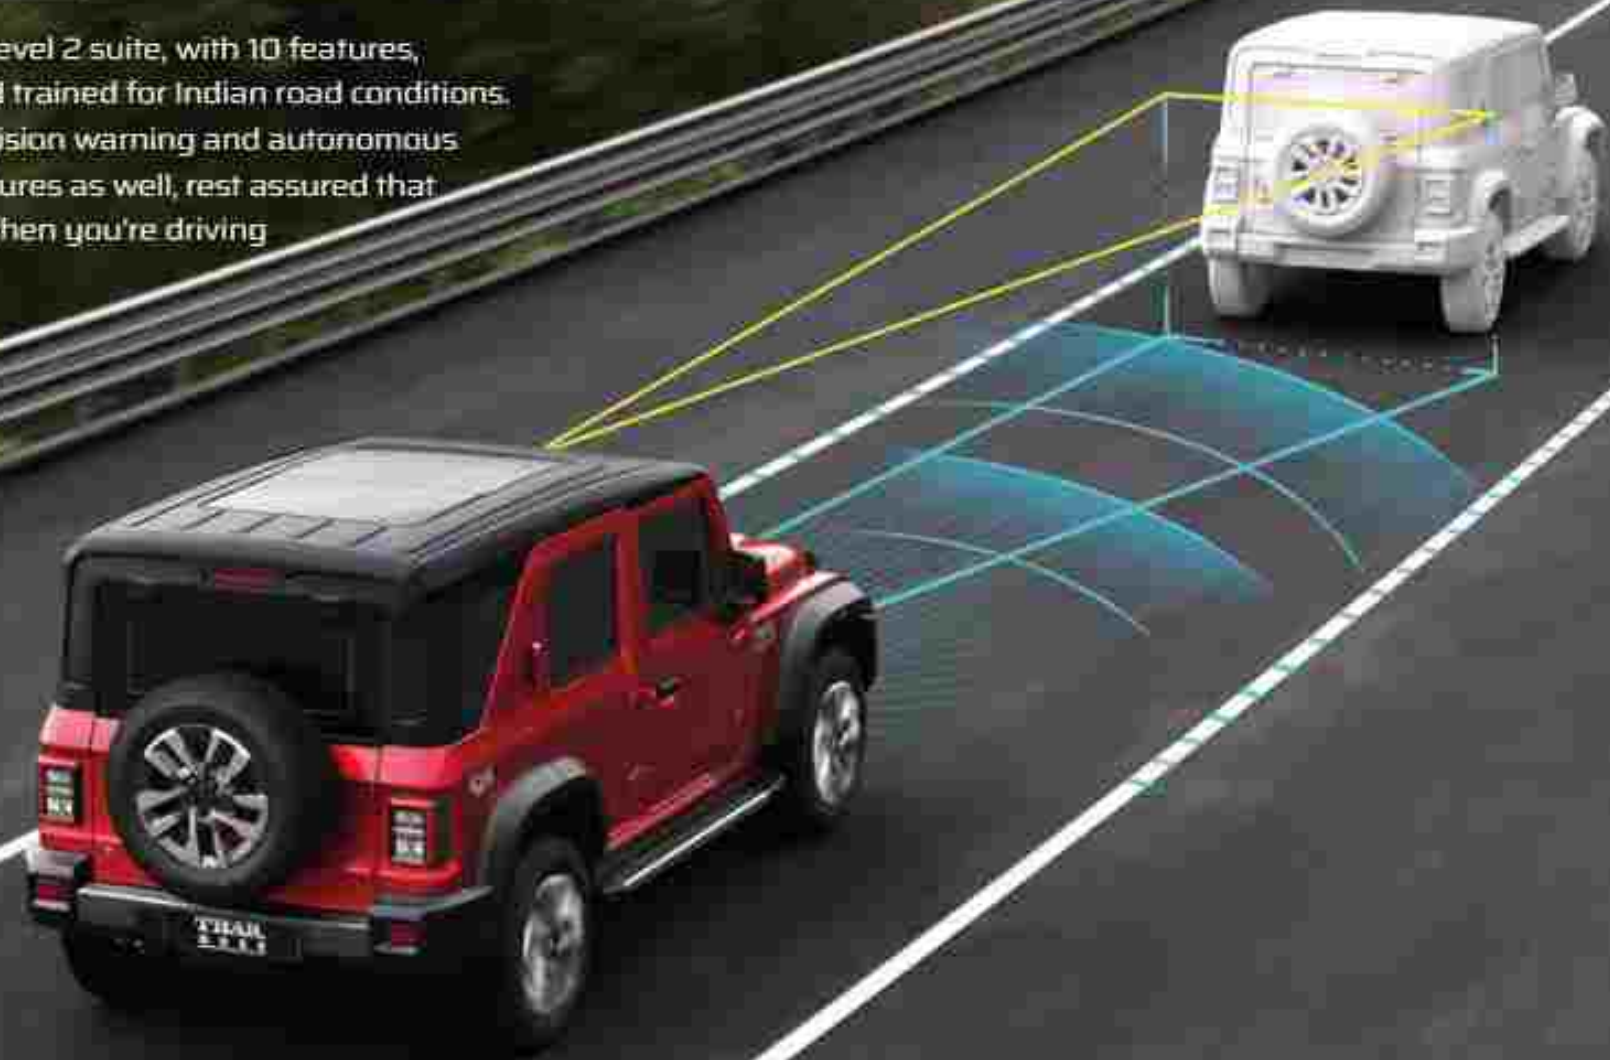

THE TECH

The future is on the move and it's got 4-wheels and 5-doors. Equipped with the latest in-car infotainment and driver information systems, sitting behind the wheel of the Thar Roxx feels like sitting in front of a hi-tech gadget.

ADAS LEVEL 2 SUITE

Say hello to the ADAS Level 2 suite, with 10 features, especially-designed and trained for Indian road conditions. Armed with forward collision warning and autonomous emergency braking features as well, rest assured that there are no surprises when you're driving THE SUV.

CONNECTED CAR TECHNOLOGY

Control your vehicle with voice commands, access navigation, and enjoy seamless connectivity wherever you go. All thanks to Adrenox and Alexa. And of course, power comes with no strings attached - ensuring you're always charged with the wireless charging pad.

'THE' DIGITAL COCKPIT

Immerse yourself in a world of connectivity and entertainment, brought alive by twin 26.03 cm digital screens, with support for Wireless Android Auto™/Apple CarPlay™. Enjoy crystal-clear touchscreen navigation, hands-free calling, and stream your favourite music and podcasts on the go.

'THE' SUV SEES EVERYTHING

Another mission with the Thar Roxx was to provide you with the best vision while on the road. The auto-dimming IRVM reduces the on-coming glare on the rear-view mirror so you're never caught off-guard, day or night. The 360° degree camera with a blind-view monitor ensures you have ultimate precision while backing up. And a novel new feature - the Obstacle view lets you look over any terrain, like an x-ray vision for your car.
