THERE'S A
FIRST TIME FOR EVERY
IMPOSSIBLE
KHIVRAJKAMAL
MH 01 ER 6965
The first time someone scales a vertical trail and makes gravity doubt itself. The first time someone dips into a roaring river just to freshen up a bit. The first time someone rolls down the window for a better view of the storm. It's all impossible only until someone driving the Thar says it's not.
Be the One.
EXPLORE THE IMPOSSIBLE.

FACE THAT NEEDS NO INTRODUCTION

The iconic front profile evolves with a bold new body-colored front grille, framed by assertive C-shaped DRL and LED headlamps.

ICE-COLD PRECISION

Ultra-stylish Ice Cube Fog and Cornering Lamps deliver a sharp lighting signature that cuts through thick mist and tight turns alike. Off-road utility, turned into a quiet visual flex.

IGNORE THE SCRATCHES

The new front and rear dual-tone bumpers are complemented by the new DRLs and Ice Cube lighting. They treat stray city barriers and jagged mountain brush with the exact same response: absolute indifference.

THE VIEW THEY'LL GET USED TO

The rear profile stays true to its roots with classic neo-retro styling, upgraded with high-intensity LED tail lamps. It's a stylish farewell to whatever, and whoever is left behind.

ICONIC FOOTWEAR

Wrapping massive wheels, the all-terrain 19-inch tyres bite into loose gravel, deep sand, and wet tarmac with equal indifference. Whatever surface lies beneath, grip is guaranteed.

Seamlessly transition from RWD to 4x4 at the pull of a lever. With dedicated Terrain Modes for Mud, Sand, and Snow, the Thar recalibrates its power delivery to tame all kinds of terrains.

OLD-SCHOOL MECHANICAL TRUTH

When conditions are demanding, the manual low-ratio shift lever puts pure mechanical grip directly into your hands. A satisfying, tactile nod to true SUV heritage.

EFFORT IS ENTIRELY OPTIONAL

Why wrestle with gear shifts when the 6-speed automatic handles them with smooth, whisper-quiet efficiency? Impossible terrains will just feel like a walk in the park.

FOR HANDS THAT DEMAND POWER

If you prefer complete access to raw mechanical power, the 6-speed manual can help you dictate your own path through the wild.
